# MASONRY FIREPLACES

GLASS DOORS . MESH DOORS

**Masonry** fireplaces are one of the most enduring and desirable elements of the American home. A warm hearth draws the family together, evoking memories of days gone by when the fireplace was the heart of the home; the cooking center and the main source of heat. Enhance the beauty and functionality of any fireplace design and increase safety and efficiency with the installation of a quality Stoll fireplace glass door.

**Beauty:** Designs range from simple to ornate; antique to modern. Select from a palette of colors and metal finishes in endless combinations.

**Safety:** Stoll fireplace doors are fitted with high quality 1/4" tempered glass and safety screens that are especially sturdy due to a "clamshell" design.

**Energy:** Properly installed glass doors can reduce air flow through your fireplace by up to 99% when ordered with the gasketed, AirSeal Door option.

Stoll Fireplace Inc. was established over 40 years ago when Mr. William Stoll designed and hand-crafted an oversized screen for his South Carolina home. Since then, Stoll has become the industry leader for innovative and economical ways to furnish your fireplace. Stoll now manufactures an extensive array of fireplace products that are found in the finest retail stores across America.

Above all, Mr. Stoll's Christian values continue to be the guiding principles of the company's ethical standards & customer satisfaction.

Original screen designed and built by Mr. Stoll in 1969.

# INDUSTRIAL COLLECTION

The Industrial Collection is our newest line, based on the growing trend that proudly displays the building materials that many try to conceal. Popular for decorating lofts and old buildings that have been turned into living spaces, it adds a raw, unfinished look that is as much about function as style.

\*shown in Antique Black

**INDUSTRIAL:** Modern (yet vintage) home decorating trend that blends contrasting elements like the strength and texture of natural steel and exposed welds with the warmth of reclaimed pallet wood. Includes special accents like casters and commercial wire.

# ORIGINAL COLLECTION

Stoll's Original Collection is made with a rigid frame design that has been our hallmark for over 40 years. Glass doors are available as BiFold or Cabinet; in either Traditional or TotalView style. Traditional framed glass doors are available in various styles and can be individualized with a variety of decorative designs. TotalView frameless glass doors offer a clean, simple styling and a maximum view of the fire. All door styles are trackless, allowing them to fold back unobtrusively against the fireplace. Choose from our selection of durable powder coat finishes, solid overlay materials, or any combination to suit your taste.

\*shown with Original in Textured Black w/ Polished Brass

**ORIGINAL:** Constructed with a 14 gauge formed steel frame which can be made in any width or depth to match the scale of your fireplace. Design possibilities are endless with a custom frame design, or use a standard size door for quick shipping.

**FILIGREE:** Adds a delicate ornamental element to the top and/or bottom of our Original frame style. Filigree requires a 3" top panel and is available in 3 overlay finishes and all powder coat finishes.

**ORIGINAL IRON:** The heavyweight, 10 gauge channel frame provides exceptional strength, depth, and texture. It is ruggedly handsome when finished in one of our scratch-resistant powder coat finishes.

# BAR IRON COLLECTION

**B**ar Iron construction allows for design and creativity not possible on our Original frames. The main frame profile is reduced to a trim 3/16" allowing the door to blend seamlessly with the fireplace, without sacrificing strength and durability. The bar iron material allows Stoll to take full advantage of Computer Aided Drawing (CAD) & the latest laser cutting technology. Custom tailored doors can be mounted inside the opening or overlapping the opening depending on your preference. They can also fit virtually any size or shape fireplace and incorporate special decorative elements into the main frame and/or door frames.

\*shown with Manhattan in Textured Black w/ Brushed Nickel Doors

**MANHATTAN:** A clean, minimalist look with hidden hinges and hardware.

**BAR IRON:** The artisans at Stoll can customize Bar Iron frames to nearly any dimension. Custom designs, custom text, Sidelight & Transom, and Grate Heater vents can be incorporated into the frame.

**INSET:** Doors are recessed into main frame using European style hinges to create a flush, custom appearance.

**COLUMBIA:** Standard size enclosures constructed of the same 3/16" bar stock as our custom Premium Bar doors. Sleek bullet hinges and 2 1/2" frame allow for full fireplace overlap; ready to ship in 2 to 3 weeks

# BAR IRON COLLECTION

**B**ar Iron Arch enclosures are cut from a single sheet of steel, which allows for unparalleled design flexibility and pinpoint accuracy. The custom main frames can be made to match a template of any opening. These enclosures can be made to overlap the fireplace opening or mount inside the fireplace opening. Inside fit arch doors are made to a rigid template to ensure a perfect fit. Exceptionally rough openings can be fitted with a Stoll Mortar Frame prior to installation of an enclosure. For an overall easier installation and a tighter fit, see page 18 for details about our Mortar Frames and Flange Option.

\*shown with Bar Iron Arch in Burnished Bronze

**PLATED:** Main frames and/or door frames can be electroplated to a beautiful, high quality, low maintenance finish in your choice of brass, copper or nickel.

**ARCH:** Stoll specializes in fitting arch fireplaces using our rigid template process to ensure an accurate fit.

**ARCH CONVERSION:** The rectangle main frame and arched door frames will create the illusion of an arched fireplace in a rectangular opening.

**SIDELIGHT & TRANSOM:** Glass-backed sidelights and transoms add additional detail and interest. They work especially well with large fireplace openings where the doors are reduced in size for ease of handling.

# CRAFTSMEN COLLECTION

The Craftsmen Collection gives our artisans an opportunity to show their skill and creativity. The goal is to capture the charm and style of metal work created in the days of the blacksmith's forge while taking full advantage of the quality and precision produced by high-tech laser cutting machinery. Choose from a variety of hammered, distressed, and embellished designs to complement your hearth. Select our clear "natural" powder coat to enhance the rugged appeal of these doors. The result will be a beautiful fireplace that looks like it has been enjoyed for many generations.

**OLD WORLD:** The distressed metal and riveted corner brackets replicate the look of metalwork crafted at the forge and anvil, creating a style to complement a period home or rustic hearth. Corner Brackets can be removed to suit your taste.

**FORGED & AGED IRON:** Each component of these two styles is heated and hand forged to a unique hammered finish. This distressed iron texture gives your fireplace a rustic charm and warmth.

**BLACKSMITH:** Adds special detail and ornamentation to your fireplace. The arched frame is designed to convert rectangular openings to the look of an arched fireplace. Decorative elements can be removed if desired.

# ESSENTIALS COLLECTION

Stoll Essentials were designed to fill the needs of the homeowner who is looking for a great value and attractive price. The doors and screens feature Stoll's heavyweight 14 gauge welded frames for strength and durability. These enclosures come in a wide range of standard and custom sizes, and are able to fit most rectangular fireplaces. Glass doors use high quality tempered glass to seal out drafts and retain valuable heat in the home; while Mesh Doors and Hanging Mesh Kits provide superior protection from flying sparks when the benefits of glass doors are not needed and hearing a crackling fire is your preference.

\*shown with Philadelphia in Bronzed Iron & Copper Trim Kit

**KINGSTON:** FEATURES HIDDEN HINGES AND PARTIALLY FRAMELESS DOORS TO MAXIMIZE THE VIEWING. AVAILABLE IN 25 STOCK SIZES OR CUSTOM MADE FOR YOUR FIREPLACE; AVAILABLE IN SELECT POWDER COAT AND OVERLAY FINISHES.

**PHILADELPHIA:** MADE WITH A STRONG 3" X 1" FRAME; AVAILABLE IN 7 SIZES AND 4 POWDER COAT FINISHES.

**TRENTON:** FEATURES A SLIMMER 5/8" FRAME DEPTH; AVAILABLE IN 9 SIZES AND 6 POWER COAT FINISHES.

**MESH DOORS & HANGING MESH KITS:** HOMEOWNERS IN WARMER CLIMATES OFTEN PREFER A SCREEN FOR SPARK PROTECTION RATHER THAN GLASS DOORS. STOLL PROVIDES MULTIPLE OPTIONS FOR MESH ONLY DOORS.

# STAINLESS STEEL & ALUMINUM

**STAINLESS STEEL:** Stainless steel enclosures are the ultimate outdoor fireplace furnishing. Solid 3/16" type 304 stainless steel frames, screens, and mounting hardware provide superior weather resistance. Stainless Steel can also be powder-coated with one of our 19 finishes to match any color scheme.

**ALLIANCE COLLECTION:** A new line of fireplace doors with low profile steel main frames and heavy-duty, extruded aluminum door frames hinged with special "soft close" hinges.

**LEGACY COLLECTION:** A line of extruded aluminum doors with features like an "all-in-one" mounting system, dual corner-key construction and extra heavy-duty extrusions that make this unique door a perfect fit in indoor or outdoor applications. Available in 4 anodized finishes as well as our 19 durable powder-coat finishes. \*See Legacy Brochure #1061 for more details

## HOW TO USE GLASS ENCLOSURES

GLASS DOORS ARE DESIGNED TO BE OPENED WHEN YOUR FIREPLACE IS IN USE. MOST STOLL DOORS COME STANDARD WITH CABINET MESH AND SAFETY LATCH TO ELIMINATE FLYING SPARKS AND LOG ROLL-OUT. PYRO-CERAMIC GLASS MUST BE USED IN APPLICATIONS WHERE IT IS DESIRED THAT THE DOORS BE CLOSED WHILE BURNING.

## HAND-FORGED FINISHES

OUR FORGED, AGED, WEATHERED AND OLD WORLD FINISHES ARE UNIQUE IN THE DEPTH, FREQUENCY AND TEXTURE OF THE DISTRESSED AREAS. BECAUSE OF THE CUSTOM HAND-FINISHED PROCESS, THE FINISH ON EACH DOOR WILL BE DIFFERENT. DISPLAYS AND COLOR SAMPLES MAY VARY FROM THE ACTUAL FINISH ON YOUR DOOR.

## STOLL AIRSEAL™

UPGRADE YOUR GLASS DOORS WITH STOLL'S AIR SEAL OPTION TO COMPLETELY SEAL YOUR FIREPLACE. THIS FEATURE ELIMINATES APPROXIMATELY 99% OF ENERGY LOSS INCURRED BY OPEN FIREPLACES. DOOR FRAMES ARE 1-1/4" WIDE AND ARE SEALED WITH GASKETING BETWEEN THE MAIN FRAME AND BETWEEN THE GLASS. AVAILABLE IN BIFOLD AND CABINET GLASS DOORS.

## FLANGES/Z-TABS

FLANGES ARE WELDED PERPENDICULAR TO THE BACK OF THE MAIN FRAME AND ARE RECESSED INTO THE FIREPLACE OPENING. TOP & SIDE FLANGES ARE USED FOR MOUNTING ON INSIDE FIT ENCLOSURES OR TO HELP SEAL ROUGH OPENINGS. HEARTH FLANGES MAY BE USED TO SUPPORT AN ENCLOSURE WHEN THE OPENING IS RAISED ABOVE THE HEARTH. Z-TABS ARE AN OPTIONAL METHOD OF MOUNTING WHEN LINTEL CLAMPS ARE NOT APPLICABLE.

**SPECS**  
3/16" thick metal  
4.5" wide frame

## LINTELS / MORTAR FRAMES

STOLL MORTAR FRAMES ARE THE PERFECT SOLUTION FOR MOUNTING A DOOR TO A ROUGH OR IRREGULAR FIREPLACE OPENING. THE MORTAR FRAME IS CUSTOM MADE TO FIT AND THEN MORTARED INTO THE FIREPLACE, PROVIDING A CONSISTENT MOUNTING SURFACE FOR THE NEW DOOR.

IN NEW CONSTRUCTION, STOLL LINTELS ENSURE A SYMMETRICAL FIREPLACE OPENING EVERY TIME. FIREPLACE CONSTRUCTION IS QUICKER AS THE OPENING IS COMPLETELY FRAMED, SUPPORTING THE MASONRY. STOLL LINTELS ARE AVAILABLE IN 6 STANDARD SIZES (2 RECTANGLE AND 4 ARCH.) STANDARD SIZED DOORS ARE AVAILABLE TO MOUNT DIRECTLY TO THE LINTEL SAVING TIME AND MONEY. CUSTOM LINTELS ARE ALSO AVAILABLE.

# MEASURING GUIDE

- DECIDE WHETHER THE FIREPLACE ENCLOSURE WILL NEED TO BE OVERLAP MOUNT OR INSIDE FIT.
  - Overlap Mount:** Most brick, marble, granite, tile or any other smooth surface fireplace will allow for a standard Overlap Mount. If an overlap mount is used on an uneven surface, two steps are needed to insure a good fit.
    - Ask for Maximum Overlap. This will help cover any gaps caused by irregular Stone.
    - Ask for Flanges. These will go inside the opening and will help to seal gaps. These Flanges will also give the installer something to pack mortar or insulation against.
  - Inside Fit:** Fireplaces that have irregular facing; like field stone, river rock, or any other uneven surface, may require an inside fit, in which the fireplace enclosure will be mounted inside the opening.
- MEASURE THE FIREPLACE OPENING AND FILL IN THE CORRECT BOXES BELOW. **IMPORTANT:** WHEN MEASURING, ALWAYS MAKE NOTE OF THE LOWEST AND HIGHEST POINTS.

## RECTANGLE:

## CORNER OR PENINSULA:

## ARCH:

## SIDE VIEW

- IS THE LINTEL LOWER THAN THE FIREPLACE FACE?
  - No
  - Yes - Please specify Face to Lintel (Box 3): \_\_\_\_\_
- IS THE HEARTH HIGHER OR LOWER THAN THE FIREPLACE FLOOR?
  - Same
  - No Hearth
  - Higher - Please specify difference: \_\_\_\_\_
  - Lower - Please specify difference: \_\_\_\_\_
