X SERIES™

Premier package upgrade includes brushed stainless Jets + coordinated trim + lighted jets and valve handles

COLOR COORDINATED TRIM, JETS, & ACCENTS

Every visible piece of trim, every jet, every handle and headrest, and each individual visual detail are all color coordinated to give the all-new X Series high-end visual appeal. Customers may not always understand exactly why they like it so much but for sure the eye is drawn in by this thoughtful aesthetic approach.

X SERIES FEATURES

ALL NEW X SERIES

PROPRIETARY JET DESIGN

The unique and proprietary design of all new X Series jets allows this series to stand out. Nearly all competitors at this price point offer the same boring off-the-shelf jets with tired designs and ho-hum functionality. X Series jets create a premium look and high-end performance at a price far below comparable mid-range and premium spas.

*Brushed Stainless Steel + new grey trim
color shown on 3" single-pulse jet*

UNIQUE & PROPRIETARY JETS

ENHANCED LIGHTING DESIGN

Strategically placed lighting throughout the spa creates more appeal in the showroom and a better, more peaceful, experience in the backyard.

Includes:

1. Headrest and weir lighting
2. Main light
3. Waterfall lighting
4. Neck jet lighting
5. Jet Lighting (optional w/ Premier package)
6. Air valve handle lighting (optional w/ Premier package)
7. Diverter valve handle lighting (optional w/ Premier package)

All-new lighted headrest, standard

Lighted jets, available with Premier upgrade

EXTERIOR LIGHTS & SCONCES

Enhanced exterior lighting adds an element of safety when most spa users need it. The redesigned sconces provide a sophisticated look, in coordinating colors, usually offered only in premium price categories.

Exterior scone light shown on new Storm color cabinet

COMFORTABLE & STYLISH HEADRESTS

All-new headrests create a comfortable relaxation experience, while updating and modernizing the look of X Series spas.

ENHANCED HEADREST DESIGN

ENHANCED WATER FEATURE

A much-improved water feature offers coordinated trim colors, back-lighting, better integration into the spa shell, and conveniently located valve for on-off and flow modulation control.

Waterfall with gray Premier coordinated trim option.

ENHANCED LIGHTED WATER FEATURE

FLOW DIVERTERS

X Series plumbing remains one of the most efficient designs in any conventional spa line, allowing all users a satisfying massage experience at the same time. However, the addition of flow diverter valves to X Series spas now also allows a user to really dial up the pressure in a specific part of the spa for a truly powerful and robust hydromassage.

AIR CONTROLS

Our all-new X Series air controls create another option and level of spa experience personalization. Dial up or down the amount of air added at the jets for a more powerful or more soothing massage experience.

Air controls injecting air into jets on high setting

REDESIGNED & COORDINATED VALVE HANDLES & TRIM

The addition of an all-new and proprietary design to components like valve controls ensures that these coordinate with jets, bezels, and other design elements across the spa. This touch adds an element of style and sophistication not often seen in spas at this price level.

Valve handle designs in both Premier coordinated trim package colors, grey or beige

PREMIER JET, LIGHTING, & TRIM PACKAGE

The Premier jet, lighting, and trim package is an upgrade that moves X Series squarely into the luxury category, on par in terms of features and finishes with nearly any other mid to high-end spa on the market. The Premier upgrade includes proprietary metallic jet faces, color-coordinated trim throughout, and an amazing lighting package upgrade that includes lighted jets and additional lighted trim pieces.

Shown with Premier package upgrade, includes brushed stainless jets + coordinated trim + lighted jets and valve handles

Optional touchscreen control

PREMIUM TOUCH CONTROLS

The addition of the option to upgrade the X Series with Bullfrog Spas premium touch controls takes this line up a notch, positioning it to now compete in essentially every way, feature by feature, with other premium conventional spas .

Bezels in coordinated trim color options

CLOUDCONTROL 2

With the CloudControl 2™ Wifi Module and the intuitive smartphone app, customers are able to monitor and control their spa from anywhere with a WiFi or digital cellular signal.

- Monitor spa status from anywhere
- Adjust pump and filtration settings
- Start up spa jets before soaking
- Turn on lights
- Adjust temperature settings

PREMIUM X SERIES AUDIO

One of the most appreciated X Series features is the quality audio system featuring a reliable behind-the-shell speaker system, quality sound, and Bluetooth connectivity.

2022 X Series audio feature the great sound and reliable performance of our hidden transducer-style speaker system.

EOS O₃ (ENHANCED OZONE SYSTEM)

The EOS O₃ System works in 3 steps:

1. Ozone is generated using corona discharge technology.
2. Free ozone is mixed with spa water sanitizing and oxidizing out impurities.
3. Excess O₃ gas is filtered out as water is returned to the spa.

EOS Ozone system

BREATHE EASY, USE LESS CHEMICAL SANITIZER, AND WORRY LESS WITH EOS O₃.

EOS PREMIUM OZONE

WELLSPRING OZONE

The WellSpring™ Ozone Purifier System features corona discharge electrode technology that creates ozone which increases the purifying oxidation potential of your spa's own water. Keep your spa clean and significantly reduce the amount of sanitizing chemicals needed.

WELLSPRING HIGH OUTPUT FILTRATION PUMP

- Same high performance, dedicated circulation pump found on premium spas.
- Now also available as an option with the A5L, R5L, and X5L models.

WellSpring High Output Filtration pump

WELLSPRING FILTRATION PUMP

FROG @ease for BULLFROG SPAS*
