

EVERYDAY MOMENTS

CREATE MEMORIES THAT LAST A LIFETIME

A Viking Spas hot tub can transform your life with simple moments of joy and healing that will energize you to take on whatever life throws your way.

Whether you choose to indulge yourself in the quiet calmness of the warm water gently swirling around you. Or engage with a loved one in a way you never have in the safe haven of hot water, where digital devices need not intrude. The soothing powers of water and gentle massage will create moments that will heal you, energize you and bring you joy.

Family-owned and American built, you can trust that every Viking Spa is handled with care and attention to detail. We want to inspire you to become part of the growing community of hot tub enthusiasts who know the difference hot water can make.

CELEBRATE ALL OF LIFE'S MOMENTS IN A VIKING HOT TUB

JUST BE TOGETHER

Escape from electronic intrusions and digital distractions and immerse yourself in the warm haven of your hot tub and enjoy each other's company.

RESTORE YOUR SLEEP

Studies have shown that a quick dip in your hot tub just before bed can contribute to a restful night's sleep.

FEEL BETTER NATURALLY

Hot water has been known to calm the nervous system and provide relief from tension and anxiety.

FIND ARTHRITIS RELIEF

Hot water improves circulation which helps alleviate stiffness caused by arthritis. This coupled with the hydrotherapeutic massage from the spa jets can provide much needed relief.

BETTER LIVING THROUGH HOT WATER

LEARN HOW A VIKING SPA CAN GET YOU THERE

For centuries, people around the world have sought out hot water for its healing power. Today, you can have it right in your own backyard with a Viking hot tub.

Hydrotherapy is a type of physical therapy that utilizes water in order to provide many forms of relief. But what makes hydrotherapy work? First, let's talk about water temperature. Hot water encourages your muscles and joints to relax. In turn, relaxation allows you to move easier and with less pain. Next is buoyancy – you naturally float in water, which means the water is helping your body support itself. This extra support reduces the strain on your joint and muscles.

Whether it's getting a good night's sleep, finding more quality time with your loved ones, or getting relief from arthritis, learn more about how you can live better through the healing power of hot water.

A STRONG FOUNDATION

WORKMANSHIP YOU CAN TRUST

Family-owned and American built, quality materials and superior components are the foundation of every Viking Spas hot tub. Combine that with careful workmanship and attention to detail and you have a spa that your family will enjoy for years to come.

Our slip-resistant, ultra-durable shell material is backed by a lifetime warranty and comes in a variety of natural colors that will provide a soothing backdrop for your daily soak. The timeless look of our exterior cabinets come in a variety of colors so you can choose just the right one to complement your backyard retreat. Choose matching corners for a sophisticated look or go bold with contrasting, rich black corners. Finish the look with a premium step that matches the cabinet color and provides an easy and safe way to enter and exit your spa.

HOT WATER MASSAGE THERAPY

WHAT KIND OF HOT TUBBER WILL YOU BE?

Will you be the person that has their go-to seat where the jets always hit the right spot or will you change it up everyday depending on how you feel and what you need?

The good news is – your Viking hot tub will accommodate you – every, single, time. With an array of seating options from loungers to captain's chairs and the unique three-way seat that goes from a corner seat to a lounge with no effort at all, it's easy to pick a favorite or a new one every day. Once you've chosen your seat, sit back and enjoy the soothing massage of the hydrotherapy jets or, choose the optional AirX jetting system and get a "light-touch" custom massage.

THE DETAILS MATTER

LIGHTING, MUSIC, ENERGY

When you're planning a quiet getaway to gaze at the stars or a get together with family and friends to reconnect, create the perfect mood by choosing from six different underwater and exterior light colors. Add to the ambiance by choosing the optional Bluetooth entertainment system with integrated speakers that let you stream any audio right from your phone.

The hot tub industry uses the energy standards set by the California Energy Commission (CEC) for all portable spas. All Viking Spa hot tubs meet or exceed these standards with its Arctic insulation that consists of 2lb polyurethane foam sprayed onto the underside of the shell followed by an installation of foam board and a temperature shield material attached to the cabinet frame.

ELITE SERIES SPAS

SIMPLY THE BEST

Space and seats for everyone. Generous jet configurations are strategically placed to provide every day opportunities to energize and heal.

WARRANTY

LIMITED LIFETIME Spa Shell Warranty

Viking warrants against the loss of water through the shell caused by defects in materials and workmanship for as long as you own the spa. The warranty described in this paragraph does not cover: (a) variances in the shell surface (these are a natural result of the compound mixture and do not compromise the structural stability of the shell); (b) minor blemishes or scratches; or (c) cosmetic color and surface texture changes due to normal use. Viking may change the availability of the warranty described in this paragraph at its discretion.

5-YEAR Cabinet Warranty

Viking warrants the cabinet panels and corners to be free from defects in materials and workmanship for a period of five years. Fading and weathering of the cabinet will occur naturally over time and are not considered defects. The warranty described in this paragraph does not cover damage to the cabinet due to improperly installed cover lifters (including lack of proper support for lifter components).

3-YEAR Limited Component Warranty

Viking warrants all factory-installed electrical equipment and plumbing components to be free from defects in materials and workmanship for a period of three years. “Electrical equipment and plumbing components” means the pump(s), heater, control system, jet fittings, filter assembly, internal plumbing, internal glue joints, and hoses.

1-Year Ozone System Warranty

Viking warrants the factory-installed ozone system to be free from defects in materials and workmanship for a period of one year.

1-Year LED Light Assembly Warranty

Viking warrants the factory-installed interior LED light assembly to be free from defects in materials and workmanship for a period of one year.

1-Year Audio System Warranty

Viking warrants the factory-installed audio system to be free from defects in materials and workmanship for a period of one year.

1-Year Spa Cover Warranty

Viking warrants the spa cover to be free from defects in materials and workmanship for a period of one year.
